## THERE WERE SOME FINE PLAYS

And There Were Some Very Glaring Errors—Justice, the Visitor's Shortstop, Did Not Do Justice to His Comrades. McDonald Made a Home Run and Twaddle Followed Suit.

The Young Men's Christian association players have been very successful in their games on the home grounds the present season, and yesterday was no exception to the rule, the club winning out by the score of 10 to 7.

Albright to first on a short hit over second, forced at second by Twaddle. P. McShane to first on fumble by third. Carey out on long fly to left. McNutt out on fly to center. Goose eggs.

Paul first on nice base hit, and went to second on passed ball. Smithwaite sent a hot one to P. McShane at short; nicely gathered in and sent very high to J. McShane at first. The baseman vaulted high in air, with hand outstretched to utmost limit, clutched the swift, speedy sphere at extremity of fingers and landed in a sitting posture on the base as he descended to Mother Earth, retiring the runner, while the delighted crowd made the welkin ring with enthusiastic cheers.

It was a magnificent stop. Justice hit a hot liner to short, which the latter dropped, but caught his man at first. Watson hit a terrific drive over short, which looked safe for a two bagger, but McShane went up after it and held it safely in outstretched hand; a superb play, almost equal to that of the other McShane at first, and the applause was deafening. No runs.

J. McShane hot to short and safe on error. Kennedy to first on error by pitcher and McShane went to third, no one covering that base. Kennedy stole second. Cartwright out on strikes. Davidson retired on little fly to second. Balk let McShane come home and Kennedy to third. Albright's base hit sent Kennedy over the plate. Twaddle hit safe for first and stole second. P. McShane out on pop fly to Briggs, at third. Two runs.

Briggs retired, second to first. Coyne out on fly to J. McShane. Geary made a base hit and foolishly tried to go to second and died. Goose eggs.

Cartwright to first on base hit. McNutt hit by pitcher, taking first and Carey second. J. McShane struck out. Carey drew a throw to second, and on bad fumble came all the way home. McNutt to second. Cartwright's hot drive to second was fumbled and McNutt raced over the goal, Cartwright to second, and to third on passed ball, coming home on Davidson's hit past short. J. McShane got cunning and was caught off first by pitcher and finally run down between bases. Three runs.

McDonald made first by good luck. Davidson fumbled Foley's wee hit and both runners were safe. Paul sent a drive to right, which Cartwright attended to in nice style and doubled up McDonald for playing too far off second. Smithwaite to first on balls, but got pert and Davidson caught him off base; then there was a play between bases, the runner in advance being finally caught trying to make third. J. McShane to Carey. Blank.

Albright out, fly to left. Twaddle retired, third to first. J. McShane out on fly to third.

McDonald retired. Foley made nice base hit over second. Paul out on fly to McNutt. Smithwaite forced Paul at second. No runs.

Carey made safe hit over second and stole the second bag, no one covering it, and on passed ball reached third. McNutt out, second to first, Carey racing home. J. McShane to first on balls. Kennedy out, fly to third. Cartwright retired, second to first. One run.

Geary out, short to first. McDonald made a magnificent home run drive over Cartwright's head, crossing the plate at about the moment the right fielder reached the ball. Foley made first on hot drive past second, sending a runner to second; but a neat double play ended the chances. One run.

Davidson to first, error by short. Albright killed, third to first. Twaddle, with a hot beauty to left center, made a home run, driving Davidson ahead. P. McShane out on fly to center. Carey retired on a dandy nice foul fly catch of third baseman. Two runs.

Geary out, second to first. McDonald retired on strikes. Foley base on balls. Paul out on strikes. Blank. McNutt out on three pitched balls. J. McShane out, short to first. Kennedy killed, foul fly catch by third. And, by the way, Briggs, at third, played magnificent ball, and went for

everything in sight, being compelled to play short as well as third, Justice being a complete failure at short stop. Blank.

Smithwaite sent one to P. McShane, who made a neat stop and an awful throw, runner going to second. Justice reached first on error of J. McShane. Watson hit to Carey and went to first, Carey catching Smithwaite at home plate. Briggs dead, Carey to first. Coyne struck out. Blank.

Cartwright, error of third, reached first, monkeyed there and was killed, pitcher to baseman. Davidson out on fly to second. Albright hit to where short should have been but the block-head was talking to second baseman and let the ball go by. Twaddle hit to short, who gracefully stooped, waited for the ball and then permitted it to pass through him, bound for center field. Kennedy hit a beauty, sending in Albright and Twaddle and reaching third himself. Cartwright hit to short, but Briggs interfered, knowing that Justice could not stop the sphere and threw the batter out at first. Two runs.

Geary out. McDonald out on long fly to Twaddle. Foley first on hot base hit. Paul sent out a beauty, sending Foley to third and going to second. Smithwaite shot a nice one out, Foley and Paul coming all the way in. The hitting was kept up hotly for the next few minutes, and when the inning ended, four more runs were added.

McNutt made a nice base hit and went to second on fumble, reaching third on base hit of J. McShane. Kennedy hit to third with a hot one and McNutt started home. Briggs again interfered and McNutt started back for third. The pitcher came to Briggs' assistance and the latter darted for third in time to receive the ball from catcher Foley, kill McNutt and then dart after and retire J. McShane who had been aiming to reach third. The play was heartily applauded. McShane was to blame for being caught. Cartwright hit safe. Davidson hit to third, and of course was out. No runs.

First man up, out to Cartwright on high fly. Next batter out, short to first. Next given a life by bad throw of short, runner going to second. Carey made a measly error by fooling with runner at second base, when he should have thrown the batter out at first, two men having already been retired. Next batter hit a grounder to center, which McNutt fumbled sadly and two runs came in, leaving a man on third. Next willow winder went to base on balls. The visitors were now howling for a hot hit, but their man could do nothing but give a little one to Davidson, who threw his victim out at first, and the agony was over, with victory perching on the home banner. Percy Albright umpired the game, and did his work in a sportsmanlike manner. Davidson pitched well all the way through. Twaddle is a tower of strength with the stick.

## A LONG TRIP.

East End Wheelmen Ready to Start For Maryland.

Two East End cyclists are preparing to leave for a long trip through the east, and will start on Monday morning for Cumberland, Md.

They are E. A. Stevenson, and James Elliott, members of the East Liverpool Eclipse Wheel club, all employees of the Laughlin pottery glost kiln shed, and have contemplated the trip from the beginning of the season, merely delaying it until the July loaf. It was intended that the entire club, six in all, should go, but the loaf will be for one week only, and four decided to stay at home.

The men will go to Wheeling and take the national pike to their destination. It will be purely a pleasure trip and they expect to be gone at least three weeks.

## EARLY IN THE MORNING

The Stamp Window at the Office Will Be Open.

## POSTMASTER HAS NEW POINTS

For the General Public—The Territory Embraced By the New System of Collection—How to Save a Day in Mail to the East.

The new regulations become operative at the postoffice on Monday, and are deemed important by Postmaster Miskall, who has been working with a view to have the city very well covered by this late apportionment.

The new territory extends to Ralston's crossing; north it embraces Huston and Bradshaw additions, Peake Point and California Hollow; west it includes Jethro and beyond the bridge. Some carriers have been transferred, and territory has been taken from some and given to others. The new carriers, Charles Smith and John McKeever are given their share of work, and the aim has been to make an equitable apportionment. Changes have also been made at the office, the most important being the opening of the stamp window at 6:45, 15 minutes earlier than usual in order to give workmen an opportunity to mail letters on their way to work. A speedy collection will be made from all the city boxes for the 6:10 train.

Mail matter entered for dispatch on this train should be deposited in the boxes not later than 4:30 or at best half an hour later. If the sender prefers to put mail in the office for this train it should not be later than 5:30 o'clock. If mail goes east it gains from 18 to 24 hours over mail brought to the office after that hour. Six new street boxes will soon be placed in position in different parts of the city, and carriers will leave the office earlier than usual in the morning. Postmaster Miskall asks all the patrons of the office to be patient until he gets the system in good working order, and to report all failures and errors in order that they may be corrected. Mr. Miskall is doing all he can for the city, and knows well that he cannot remedy defects without knowing that such defects exist.

## ABASE FALSEHOOD.

Unprincipled, Ungentlemanly and Un-called For Conduct.

There are parties engaged in malicious and unmanly work in East Liverpool respecting E company and her contemplated trip to Chattanooga. The said parties are circulating the report that the members of the company will be called upon to pay their own expenses on the trip. This is an absolute and point-blank falsehood, and is done by malcontents and sore-heads, men who would rule or ruin, in order to deter volunteers from joining the company. The fellows who have engaged in this dishonorable work are well known, and their full names may be given to the public in due time, as witnesses stand ready to swear that they have been approached on the subject and urged to do everything in their power to injure the organization. These malcontents imagine they are sharp, cunning and keen; but they have counted without their host; the cloven foot has peeped out from their garments and the serpents fangs will be extracted.

The trip to Chattanooga will be made, almost without doubt, by the Eighth Ohio National Guards, and if the regiment goes there, E company of East Liverpool, will accompany it, fully outfitted, accoutred and equipped, and drilled to such perfection, under Captain Walter Supplee and an efficient staff, as to reflect full credit upon this pottery city.

## A DEAD BABY IN COURT.

Unusual Proceedings in an Organ Replevin Case Today.

The case of James E. Green versus Conrad Goodballet was at least interesting when it was tried before Squire Morley at city hall this morning.

Green had caused an organ to be replevined from Goodballet in East End. The testimony of Goodballet and his wife was to the effect that the organ had been given to Mrs. Goodballet for caring for Green's sick baby. After the death of Green's wife he induced the Goodballets to take charge of the little girl baby then only a few weeks old. The infant was sickly, and the agreement was that if she lived until the following spring Mr. and Mrs. Goodballet would adopt her. Meanwhile Green's health was poor and his physician advised him to go south. He took an organ to the Goodballet residence, and according to the testimony of the defense they were to become

owners of the instrument if the child died. A few months later Green left for the south and in about three weeks the child died. Green returned before the little one's death, however, and told Mrs. Goodballet that the agreement would hold. Since then Green has taken unto himself another wife and wants the organ. Hence he replevined it.

Squire Morley wasted no time in giving a verdict and it was for the defendants. He ordered Green to return the organ to the Goodballet residence, and pay the costs in the case.

## WILL SETTLE ALL.

The Last of the Farmer Case—Other Suits Before Squires.

There will be no appeal in the Farmer case. F. J. Farmer is settling up the middle with the plaintiff's attorney and will probably retain the disputed boiler by paying for it as well as the costs in the case. The execution of Willis Gaston on Farmer's horse will also be settled.

In the case of Samuel Grove versus John Boyd, of Allegheny, for \$170 and interest, the purchase price of a horse, Squire Rose this morning heard the attorneys argue a motion by the defense to quash the summons. He overruled the motion. No date has been set for the trial.

Squire Rose rendered judgment for Jerome B. Rice for \$6.25 in his case against A. C. Bradshaw. The money was attached some weeks ago in the hands of a local party.

The case of Nick Eck versus Nicholas Wagner which was set for trial before Squire Morley today was continued indefinitely. Wagner could not be found, and the plaintiff is required to wait 40 days, as required by law, before the defendant's wages can be attached.

In the case of John S. Dixon versus John Goddard, in which Squire Morley rendered judgment for \$85 and costs for Dixon, the defendant gave notice of appeal to common pleas court today. It was just in time as Squire Morley was making out execution papers in the case.

The case of F. M. Foutts versus Ellen Hanlon has been settled out of court.

## TWO ELECTIONS.

Senior Mechanics and the Daughters of Liberty.

The Senior Mechanics have elected officers as follows: Senior ex-councillor, William Snowden; councillor, Herbert Johnson; vice-councillor, William Bailey; junior ex-councillor, Homer Twaddle; recording secretary, James Myler; assistant secretary, William Graham; financial secretary, Thomas Lloyd; treasurer, B. A. Rigby; inductor, J. Masters; examiner, Chas. Kay; inside protector, John Wilson; outside, P. B. Myler; trustee, A. H. Clark; E. M. Anderson has been appointed deputy state councillor of the district.

The Daughters of Liberty elected: Councillor, Fannie Grafton; associate, Ella Buckley; vice, Frank Anderson; associate, Etta Suter, recording, P. B. Myler; assistant, George Phillips; financial, Francis Pickel; treasurer, Emma Knowles; guide, Gussie Garner; inner guard, May Myler; outer, H. Johnson; trustee, Aggie E. Kinsey; delegates, Florence Jessop and Lou McMillan; alternates, Mary D. Kerr and Mary P. Rigby.

## WINDING UP.

The Business in Common Pleas Coming to a Close.

SPECIAL TO NEWS REVIEW  
LUSBO, June 29.—The suit of O. A. Wilson against G. H. Alcorn, two Palestine men, for wages was settled today by the plaintiff obtaining \$25.48.

The motion for a new trial in the case of Maneval against Koper in which the defendant got \$75 for slander was overruled, and 50 days given in which exceptions can be filed.

A transfer of real estate that is of interest was recorded today. In the transaction Professor Galbreath sells the ground under the dormitory of the college at Rogers to Mrs. Ellen Wallace for \$4000.

Marriage licenses were today issued to L. A. Connell and Miss Edie Earnst, of North Georgetown, and L. L. Vickers and Miss Bertha Book, of Salem.

## ON THE ROAD.

The Wheelmen Are Speeding From Steubenville.

Before the NEWS REVIEW is read tonight the wheelmen who have entered in the Steubenville road race will be on the road. They will arrive here between 5:30 and 6 o'clock, and because the best riders in the city are entered a good race is expected. The contestants, accompanied by W. L. Taylor, president of the club, and William Hill, the starter, left Wells-ville at noon today.

## DRINK IN THE DIAMOND

But You Will Do So At Your Own Risk.

## HEALTH OFFICER'S DECISION

Is That the Water From the Fountain Is Unhealthy—Tests Being Made of Many Wells by the Health Officer—A Zoological Hydrant.

Those who drink of Diamond well water do so at their own risk, and that risk is one of health according to the latest decision.

It will probably be disappointing news, but it is true nevertheless that the sparkling fluid which flows from the fountain is pronounced unhealthy by Health Officer C. B. Ogden, and the doctor is not guessing at it either. Yesterday afternoon he secured a large glass of the water from the newly drilled well and put it to the severest tests. Today he showed the water to a NEWS REVIEW reporter, and explained the objectionable qualities. The bottom of the glass was deeply covered with a black sediment, which did not stir until the glass was roughly shaken. Along the sides of the glass was a deposit of the same kind for perhaps half an inch from the bottom. A strong reading glass brought the particles nearer the eye and caused a sudden decision that the examiner did not care to indulge in any drink of that variety.

Doctor Ogden has not fully decided whether the well has been drilled too deep or not far enough in the ground, or whether the bad water comes from a new vein or a leak in the casing which shuts off the surface water. At any rate, the water is not calculated to improve the health and the doctor cannot honestly advise anybody to drink it.

Beside this water Doctor Ogden has been making tests from the different wells about the city and has analyzed some 25 in all. Of these six bottles of water from wells in East End are still in the doctor's office and only one or two of them approach a pure state. The only absolutely pure water so far found in this section is from Rock Spring. Among a variety unpleasant to look at Sanitary Policeman King has found a hydrant on Walnut street where snakes, elephants, rhinoceroses, dragons, sea serpents, etc., can be procured free of charge. The board of health will condemn many wells.

## TWO NEW CARS

With Vestibules To Protect the Motorman Arrived Today.

The new street cars are here, or rather two of the promised three have arrived and were today sidetracked at the power house where they will immediately be made ready for use.

The cars are considerably smaller than those now in use, but hand-somer, and probably just as serviceable. They differ from the present variety by being vestibuled, with the regulation style of enclosure in front, and the motormen who run the new coaches can consider themselves lucky as they will be protected from the rain and snow during the cold season. The new cars are of a bright yellow color despite the fact that the atmosphere in this city is against light hues of paint. They are numbered one and two.

The vestibuling of only one end of each coach is considered proof that the company has decided to use no conductors for many months to come.

## CLEAR THE TRACK.

Teamsters Who Want No Road Improvement.

The new entrance to the freight depot is causing wrath to rise in the breasts of teamsters who load and unload their drays and wagons on the platform. The company recently improved the road by covering it with furnace slag, but neglected to have the slag broken, and the teamsters suffered. This morning a crowd of them threw many of the objectionable lumps away while their anger was clearly seen in their words.

## A PHOENIX ANSWER.

The Club Wants to Play Ball With the Lawyers.

Since the lawyers announced that they could play ball the athletic members of the Phoenix club have been thinking of their past glories, and smoothing down the old ball bats for a conflict. They have decided the lawyers must face them on the diamond, and do it with a team made up of lawyers. The Phoenix contains many good players, and they will make the disciples of Blackstone work.

A LEVEL HEAD.

General Bushnell was in New York yesterday and told a reporter about the political fight in Ohio. Among other good things he said:

"It is a very pretty quarrel, and I can't see why I should be worried about it. Yes, it looks very much now as if Congressman Paul Sorg would be the man for me to beat. He said the other day that he wouldn't touch the nomination with a ten foot pole. Well, I won't put much stress on that. When the time comes I think Sorg will accept. Personally, he and I are good friends, and if he is the nominee we will have a campaign free from any personal unpleasantness."

The promise of a campaign free from personalities is gratifying in the extreme since it shows that the general will not stoop to this unless he is forced by his Democratic opponent.

A SAMPLE OF SLUSH.

A government of the people, for the people, and by the people, is passing away, and a government of the aristocracy is dawning; in fact has come. Will it be permitted to stay? That is the question.—Lisbon Patriot.

This is a sample of the slush dealt out by some Democratic papers of the day, and is only considered harmless because of the source from which it emanates. The idea is wrong, the utterance a denial of a plain and simple truth, and therefore cannot but be taken as harmless. This is still a government by the people because the people elect the men who make the law, and it is a government of the people because these men come from the ranks of the people. A government of the aristocracy is not apparent. In true meaning we have no aristocracy. There are proud men and women in the country, but their legal rights are no more than the legal rights of the poorest men and women in the land. The millionaire with his barrels of gold and bundles of bonds can only put in the ballot box the same sized vote as the man who doesn't own a penny. A government of the aristocracy will not be permitted to stay because the greatest monarch of the earth, the American people, will never let it come. Go to, thou misnomer, and leave thy country before thou dost slander its people by treason in the oily form of prevarication. Go hide thyself in the clefts of the rocks, for verily thou must learn wisdom before thou canst prate of being a patriot.

## IRON WAGES GO UP.

Scale Settlement Means an Increase For Workers.

YEAR'S PROSPECTS VERY BRIGHT.

Price of Bar Iron on Which the Agreement is Based is Advancing—President Garland Fixes Details of the Scale, Which Goes Into Force Aug. 1.

PITTSBURGH, June 29.—The settlement of the Amalgamated wage scale at Youngstown, O., on a \$4 a ton basis for puddling, means that wages of iron workers will be generally advanced.

The settlement holds good in all the mills controlled by the association. It is on a bar iron card rate of 1 1-10 cents per pound. For every advance of 1-10 cent in bar iron prices the puddlers will receive 10 cents additional per ton. As iron is now being quoted at 1.15 and 1.2 cents a pound it virtually means that the workers will receive \$4.35 a ton for puddling. Everywhere the mills are choked up with orders and a long and prosperous season in the iron trade seems assured to the end of this year.

The kick made by the Youngstown puddlers and their threat to leave the Amalgamated association and reorganize the old Sons of Vulcan is not likely to amount to a great deal. President M. M. Garland of the association argued with the Youngstown men. He and Secretary James Nutt of the Iron Manufacturers' association arranged the scale which has been signed.

No important changes have been made and the scale is now arranged for the coming year, commencing Aug. 1, when the present scale expires. Under the old scale either side could abrogate it upon giving 60 days' notice. This clause has been eliminated from the new scale, it not being satisfactory to either organization. President Garland predicts a prosperous year's business in the iron trade.

PAY OF 10,000 MINERS ADVANCED.

Southern Pig Iron and Coal Prices Are on the Jump.

BIRMINGHAM, Ala., June 29.—The Tennessee Coal and Iron company has announced another advance of \$1.00 a ton in the price of southern pig iron. This makes the total advance \$7.75 a ton.

The Tennessee Coal and Iron company has also announced an increase of 15 per cent in the wages of its 4,000 miners. As other operators base their scale on that of the company, the advance affects 10,000.

THOUSANDS GET AN ADVANCE.

Many Eastern Iron Workers Receive Notice of Ten Per Cent Increases.

PHOENIXVILLE, Pa., June 29.—The Phoenixville Iron and Bridge companies, employing 2,000 hands, have posted notices in all departments that an increase of wages will be given July 1. The amount was not stated, but it believed that it will be 10 per cent.

SCRANTON, Pa., June 29.—The Green-ridge ironworks firm has notified their 200 employees of an increase of 10 per cent in wages.

CAUGHT IN OHIO.

After a Year's Chase Notorious Counterfeiter Is Nabbed.

PERRY, O. T., June 29.—Marshal Nix of Oklahoma has succeeded in making a big catch. He has received information that Dr. W. H. Rister of Cleveland and E. Reese of Troy, O., have been arrested for counterfeiting.

For five years Oklahoma has been infested with many counterfeiters, and the leaders who are said to have furnished all the material for part of the proceeds are now said to be under arrest. Dr. Rister is said to be worth \$100,000.

LIMA, O., June 29.—Two crooks have been arrested here after a year's chase all over the continent by detectives. They are supposed to be the men wanted in Oklahoma.

Depew Denies He Is to Marry.

NEW YORK, June 29.—Channey Depew, when seen in regard to his reported engagement, said: "The story is made out of whole cloth. I do not know of any young lady worth \$8,000 who would have me. No less than four times recently have rumors had me engaged to marry, and the most estimable young ladies mentioned would no doubt have conferred a great honor on me had the rumors been true. They were not, however, and I do not think that any such rumor at any time will be substantiated."

No Clash on Free Silver Here.

LARK MAXINKUCKE, Ind., June 29.—The state Democratic Editorial association has adopted resolutions saying it is a positive pleasure to them not to be compelled by any present exigency to make a formal declaration of positive principles on the silver question. The members all felt that they needed more time to consider the question.

The Fitzsimmons Trial.

SYRACUSE, N. Y., June 29.—After three days' effort a jury has been secured for the trial of "Bob" Fitzsimmons on the charge of manslaughter in the first degree, in the killing of his sparring partner, "Coo" Riordan, in an exhibition in this city.

A Governor's Grandson Sent Up.

COVINGTON, Ky., June 29.—Judge W. H. Taft has sentenced Edward Crittenden, a grandson of ex-Governor Crittenden of Kentucky, to serve 18 months in the Ohio penitentiary for rifling mail matter at the Frankfort postoffice where he was employed.

Furnaces to Resume.

LEXINGTON, Va., June 29.—The 200-ton blast furnace at Buena Vista and Victoria furnace at Gosport, both in this (Rockbridge) county, will go into blast in a few days after a shutdown of several years.

Convicted of Killing a Child.

BOSTON, June 29.—Angus Gilbert has been convicted of the murder of little Alice M. Sterling, which he committed several months ago, afterwards burying the body at Dorchester.

## PRESIDENT GUERIN NOT AFRAID.

Receivership Application Won't Prevent Reorganization of the C. S. & H. Road.

COLUMBUS, June 29.—On application of a dissatisfied stockholder, the Columbus, Sandusky and Hocking road has been thrown into the hands of a receiver at Bucyrus, J. H. Stewart of Bucyrus, one of the directors, being appointed receiver. President Guerin and other officials, on learning of the situation, ordered a special train for Bucyrus to seek to circumvent the receivership. Cal Brice denies all knowledge of the application, his name having been associated with the application. The road has suffered ever since the panic, going through two coal strikes safely until now.

President W. E. Guerin of the Columbus, Sandusky and Hocking Railroad company stated that the application for a receivership was intended to interfere with a private plan for the reorganization of the company, which is on foot. He does not think, however, that it will have the effect intended, as the reorganization is well under way. The application for a receiver was made by J. H. Roser of Findlay, who holds four bonds of \$1,000 each, on which there is \$300 interest due. He is represented by Judge Bois of Sandusky, and James Lentz of New York. Just who is back of the movement cannot be learned. The Columbus, Sandusky and Hocking has a capital stock of \$7,393,134, a funded debt of \$9,128,690.

The present system was formed by the consolidation two years ago of the Columbus, Shawnee and Hocking, and the Sandusky Short line, and comprises 230 miles of road extending from Zanesville, Muskingum county, and the coal fields of Perry county through Columbus to Sandusky on Lake Erie. The deplorable condition of the coal business for the past two years has cut down the earnings of the road considerably. The company was unable to pay its interest and made arrangements with the bondholders to get a bond script in lieu thereof, this script to be redeemable in consolidated bonds. All the bonds of the company bear 5 per cent.

GENERAL BUSHNELL TAKES.

Ohio's Republican Governorial Nominee Thinks Sorg Will Be His Opponent.

NEW YORK, June 29.—General Asa S. Bushnell, Republican nominee for governor of Ohio, is here with his son-in-law, J. Frank McGraw, and Oscar Martin. General Bushnell said:

"The Democrats will hold their convention at Springfield, Aug. 20, and that date was chosen to allow Senator Brice, Paul Sorg and others to get Ohio Democrats in line on the silver question. The Brice faction declares that the party will be terribly defeated if the convention declares for silver. The silver faction, led by Allen Thurman, declares that the Democratic party in Ohio will go to destruction if Brice and the administration is endorsed. It looks very much just now as if Congressman Paul Sorg would be the man for me to beat. If he is the nominee we will have a campaign free from personal unpleasantness."

THE COMMERCIAL TRAVELERS.

New Officers Chosen at Their Convention in Columbus.

COLUMBUS, June 29.—The supreme council of the United Commercial Travelers of America is in session here. The report of the secretary shows that there have been 14 deaths during the past year, and that the present membership is 3,056, a gain over last year of 48 per cent. The receipts for the year were \$27,000, the disbursements \$21,000 and the present resources \$24,000. It is not believed that there will be any material changes in the constitution of order and the business will be largely of a routine nature. The past year has been the most prosperous year in the history of the order.

The following officers were elected: Supreme counselor, R. N. Hull, Cleveland; supreme junior counselor, James A. Kimball, Salina, Kan.; supreme secretary, Charles B. Flagg, Columbus, O.; supreme treasurer, W. E. Carpenter, Columbus, O.; supreme conductor, R. F. Somerville, Dayton, O.; supreme page, Charles W. Rice, St. Paul, Minn.; supreme sentinel, W. L. Day, Concordia, Kan.; executive committee, F. A. Zells and M. L. Dickey, both of Columbus, for two years. S. A. Haines of Indianapolis was appointed supreme chaplain.

Increased Wages 10 Per Cent.

CLEVELAND, June 29.—The Cleveland Steel company has posted a notice notifying their employees that owing to increased business and better prices for product, on and after July 1, 1895, the present tonnage rates on the plate mill and plate mill furnaces will be advanced 10 per cent. Common laborers also receive an advance in wages. About 150 men are benefited.

To Promote Professional Bicycling.

NEW YORK, June 29.—For the past two weeks a movement to interest the leading members of the National Trotting association in bicycle racing, chiefly in a professional way, has been on foot and culminated in a meeting at The Turf, Field and Farm office, Hamilton Burby presided. Johnson, Sanger, Tyler and other professionals were represented by T. W. Eck and David Shaffer. The proposition is to form an association for the government of professional cycling, and use the grounds and influence of the trotting men wherever acceptable.

Newfoundland Fishing Disaster.

HALIFAX, N. S., June 29.—A fishing smack on the way to the grounds went down when a few miles from shore with all on board. The names of the lost are: William Bolt, captain, aged 80, William Bolt, Jr., William Bolt and John Kerby.

No American Yacht Seized.

HAVANA, June 29.—Further inquiries made here by your representative show there is no truth in the story of the capture of the American yacht Neptunia by a Spanish warship and the imprisonment of those on board of her.

ROYAL BAKING POWDER CO., 106 WALL ST., N. Y.

**WOMEN'S TRADE REVIEW.**

Business Better, Though Crop Outlook Is Less Distinct.

**BIG INCREASE IN WOOL SALES.**

Bessemer Advances, With a Further Rise in Structural Iron Expected—Bar Price Maintained—Business Failures Less Than Last Year.

NEW YORK, June 29.—R. G. Dun & Co.'s Weekly Review of Trade issued today says: Business is better, although the crop outlook, affecting the prospects beyond the near future, is a little less distinct. There is more ground for doubt about winter wheat and cotton than a week ago, and threshing receipts are comparatively low, though the prospects for spring wheat are exceedingly good. The price, a quarter of a cent lower for the week, is beyond mistake too low, if the latest impressions of injury to winter wheat are correct.

Receipts for the week are relatively small, but for four weeks have been 5,166,414 bushels against 5,794,528 last year, while Atlantic exports, flour included, have been for four weeks 4,912,729 against 7,444,002 bushels last year. Corn has declined a fraction and pork is steady. Cotton has fallen 3-16 to 7 cents in spite of reports of serious injury by rains in Texas and Louisiana. A little buying by northern spinners surprises the market, for their takings have been more than enough for the year's consumption, and returns show a great decrease in exports of cotton goods.

Speculation has even spread to the wool market, and with an advance of about 1 cent in prices the sales have been the largest ever known for any week—4,017,900 pounds against 6,835,600 in 1892. In four weeks of June sales have been 16,132,465 domestic against 17,451,500 pounds foreign, but in 1892 they were 13,940,750 domestic and 10,427,500 foreign. A growing belief that the domestic clip is short, and an idea that the coming London sales beginning July 2 will show higher prices, have been more potent than a little increase in the manufacturing demand, and the price has risen in all markets. Light weights and mixed goods hesitate and some are lower than a year ago, but since the Washington mills opened early worsted at a slight advance, other medium and better grades have been stronger in tone. The labor troubles are passing with frequent advances in wages.

Copper has been strengthened by a large sale of Calumet and Hecla for export at 10 1/2 cents, which is now quoted, while tin is slow at 14.05 and lead at 3.27 1/2. Iron still advances. Bessemer selling for \$12.90 at Pittsburgh and Grey Forge at \$10.80, a further advance in structural forms is expected, the western demand for steel rails at the advance of \$2 per ton is quite good, the rise in bar is maintained, and plate and sheet mills are crowded so that it is difficult to place orders at current prices.

The half yearly report of failures next week will include about 6,900, against 7,030 for the first half of last year, and assets of about \$88,000,000, against \$101,578,152 last year. But for the cordage concern the aggregate would be nearly 23 per cent less than last year and the manufacturing liabilities 26 per cent less, but including it liabilities will be about \$10,000,000, against \$11,370,120 last year, and the \$45,000,000, against \$32,345,978 last year, while miscellaneous liabilities only \$2,700,000, against \$7,100,000 last year. Failures during the past week have been in the United States, against 10 in Canada, and 22 in Canada, against 10 in the United States.

**WANTS REFORM.**

Citizens Cry Out Loudly Against Rotten Practices.

OMAHA, June 29.—One thousand business men, regardless of party, have united in a demand for reform in municipal government, to which great rotteness is ascribed.

Months ago city money was used by men with political influence. The matter became so flagrant two weeks since that a demand for an audit of the city funds. The next assessor fled, leaving led commit suicide.

**Charges Against Lumbermen.**

ST. PAUL, June 29.—The United States in an action brought today in the circuit court by Special Counsel John E. Strickland, alleges that a number of the most prominent lumbermen of Minnesota have, without any warrant, been devoting the northern part of the state, denouncing the territory of its timber, and that they must pay the full market value of lumber to the amount of \$1,000,000, and interest.

**German Sharpshooters Gathering.**

NEW YORK, June 29.—About 2,000 German sharpshooters, the advance guard of more than 10,000 riflemen from all parts of the United States, will assemble this evening in the Central opera house to drink to the success of the first national Schuetzenfest in this country. The fest is to be in a park at Glendale, L. I., and will last until July 6.

## WHOLESALE MURDERER HUNG.

He Confessed on the Scaffold to Having Killed Six Men.

JACKSON, Ky., June 29.—Bad Tom Smith, horse thief, incendiary and wholesale murderer, has been hanged here in the presence of 5,000 people, who had come from miles around. Smith confessed on the scaffold to the murder of Rader and five others, and said he was the hiring of B. F. French of the French faction, in every murder except that of Rader. No mountain desperado has killed more men in Kentucky than "Bad" Tom Smith. He murdered Joe Hurt in '83, Combs brothers and Eversole in '88, Ambrose Amburg, Robin Cornett, Jacob McKnight and Ed Campbell in '89.

In September, 1894, he resisted arrest in Jackson. Town Marshal H. C. Hurst, Jr., and Deputy Samuel Mans attempted to arrest Smith and a number of his cohorts, and a fight followed in which Smith was shot in the left arm, breaking the bone and severing an artery, from which he came near bleeding to death. After getting from under the clutches of the law this time he went to live with Mrs. Catherine McQuinn, a well-to-do woman of bad repute. At her house Dr. Rader was killed one night by Smith, when he was captured and tried. Smith tried to charge the murder of Dr. Rader to Mrs. McQuinn, his paramour, but the court found him guilty. He was jealous of Rader.

## RUSSIA CAN'T BLUFF JAPAN.

Japs Think Their Soldiers May Be In St. Petersburg In Two Years.

NEW YORK, June 29.—"I really don't think war between Japan and Russia is imminent," said Mr. Hashiguchi, the Japanese consul general at New York, in an interview. "However," continued Mr. Hashiguchi, "Japan will not be bullied. If Russia attempts to interfere with the affairs in Korea Japan will insist upon her rights. "We are just beginning to recover from a rather exhausting war and are in no hurry to get into another quarrel, but I wish to say to you emphatically that Japan is not afraid of Russia. I will go so far as to assure you that there are Japanese—and they are now carried away by enthusiasm—who would not be astonished to see a Japanese army in St. Petersburg within the next two years."

## MARIE'S TALE OF WOE.

She Tells How Her Actor Husband Was Unfaithful to Her.

SAN FRANCISCO, June 29.—The testimony of Marie Burroughs, the actress, in her suit for divorce from her husband, Louis Massen, has been submitted. Massen was the leading man in his wife's company and stopped at the same hotel. She alleges infidelity and her testimony says she learned years ago that her husband was unfaithful. Her suspicion was confirmed by finding letters addressed to her husband, although she lived at the same hotel, she says she never condoned the offense and always occupied separate apartments.

## Won't Listen to Silver Men.

NEW YORK, June 29.—The Hon. Claude Matthews, Democratic Governor of Indiana is at the Fifth Avenue hotel, on his way with his family for a short rest on the Maine coast. Of Indiana he said: "We do not have a state election until next year. Unmistakably there is a strong silver sentiment in the southern counties of Indiana among the Democrats, but the Democratic state committee will not, I imagine, regard any request for a state convention to listen to these silver men. Democrats and Republicans both profess to believe that General Harrison will be the candidate of his party for president next year."

## Had to Guard the Aldermen.

DENVER, June 29.—Almost the entire police force of Denver has been employed in guarding the houses of eight aldermen who feared violence from their constituents. A bill for an ordinance granting a reduction of only 15 per cent on the schedule of water rates now in force passed the aldermen by a vote of 8 to 6. The people wanted a greater reduction.

## Olney to Leave Today.

WASHINGTON, June 29.—Secretary Olney expects to leave Washington today to be absent the greater part of the summer. He will spend a portion of his vacation in Massachusetts, and will occasionally visit the president at Gray Gables.

## Miss Dodge Leaves Washington.

WASHINGTON, June 29.—Miss Abigail Dodge has regained her health sufficiently to leave the city. She has gone to Hamilton, near Salem, Mass.

## VARSAITY WON BY YALE

Harvard's Crew Beaten the Fourth Consecutive Time.

ELI'S BOYS NINE LENGTHS AHEAD.

They Were Still Fresh at the Close and Threw In a Quarter For Good Measure—Two Harvard Men Badly Exhausted—Scenes at the Race.

NEW LONDON, Conn., June 29.—Yale won the fourth consecutive victory over Harvard in the university boat race here, and won easily by nine lengths, the official time being 21:30. The conditions of water and wind could not have been more favorable. Harvard had a slight advantage at the start, but when a mile had been rowed Yale was a length and a half in the lead, Eli's crew rowing with a surer stroke than the Harvard men, who splashed a little.

Longene, Treadway, Yale. Armstrong, Langford, Harvard.

over the entire course. The story of the race is told in the record of the official time, which is as follows: First mile—Yale, 5:04; Harvard, 5:20. Second mile—Yale, 10:21; Harvard, 10:37. Third mile—Yale, 15:59; Harvard, 16:21. Fourth mile—Yale, 21:30; Harvard, 22:05.

The members of the Harvard crew were badly exhausted by the time the course had been rowed, but the Yale men appeared fit for a continuation of the work and rowed a quarter of a mile without easing up their stroke. It was Yale's thirteenth victory since the annual races were commenced in 1876. Amid acres of masts and spars, forests of fluttering flags and labyrinthine of scurrying crafts of all kinds, Yale's brawny young giants pulled their shell over the finishing line, with an easy going stroke that bespoke confidence that Harvard could not under any circumstances beat them out. About the gray old bridge that spans the river Thames at the finish line of the long Varsity course there was a floating city, a carnival of colored stream that would rival Tintoretto.

The river was a moving mass of color, changing in kaleidoscopic form about the narrow marine lane left for the college crews to struggle in for supremacy. When the sun came out after threatened rain, about an hour before the race was called, it turned the dark gray water into a pale blue, on which you

Boyd, Cross, Yale. Holcomb, Dater, Harvard.

might catch gleams of the great reversed groups of gaudy flags and bunting mirrored beneath the dancing waves.

The hillsides and the bridge were masses of moving brilliant bits of blue and crimson, pretty girls were everywhere, decked in the color of their favorite college and they frescoed the boats and the hillsides streaming in groups of color and trying to be heard above the tooting and backing and filling of the multitudinous craft.

The number of excursion boats, private yachts and other sailing craft has rarely, if ever, been exceeded, and it is a matter for further congratulation that so thoroughly was the course policed that no very serious accident occurred, except the smashing by the referee's boat of one of the naphtha launches that hung on the starboard of a private yacht. The steamers and yachts were not allowed to go very far up the stream, so they gathered about the finish in a dense squadron, extending for nearly a mile above the bridge.

## To Watch For Filibusterers.

NEW YORK, June 29.—The U. S. cruiser Atlanta, Captain Cromwell, is bound for the West Indies to co-operate with the cruiser Raleigh in patrolling the Florida coast to prevent filibustering expeditions from leaving the United States for Cuba.

## Will Exonerate Crispi.

ROME, June 29.—It is announced that King Humbert will shortly issue a decree exonerating Premier Crispi from the charges of having been connected with Dr. Cornelius Herz, the Panama canal lobbyist.

## A Fight With Students.

PARIS, June 29.—There has been a conflict between the students of the Latin quarter and the police, during which two of the students were injured and five others were arrested.

## LOCAL BREVITIES.

Every other man who drinks at the Diamond well objects to the water. It has a smooth, soapy taste to which the people have not yet become accustomed.

All the potteries have shut down for the holiday loaf, some of them having suspended operations weeks ago. It is thought that the new order of things will make an unusual brightness after the Fourth.

The Young Men's Christian association ball club have accepted the challenge of the New Brighton team, and will play on the grounds of the latter club next Saturday afternoon. They will take a crowd of rooters with them.

The great number of marriage licenses recently issued at Lisbon is a matter for comment. During this same month last year the applicants were few and far between because of the hard times, and the present rush is a sign of returning prosperity.

Professor S. D. Sator, superintendent of the public schools, left this morning, with his wife, for Homeworth, and next week they will go to Sandusky. The professor will attend the meeting of the Ohio Association of Teachers to be held in the latter place.

John Love says that his son James who is now in jail at New Cumberland on a charge of ferrying without a license, will be freed soon. He claims that his son is not of sound mind, and was beaten out of the money he thought he was paying for a license last fall.

The party who camp every year at Fernwood on the Little Beaver are arranging to occupy their quarters there next week. Mr. and Mrs. W. L. Taylor will take up their abode there on Monday, and the others will follow in a few days. The location of Fernwood is among the most delightful in this vicinity.

Fourteen members of the American Fishing club leave Monday for Hayes, W. Va., from which place they will go to Matamoros, where they will pitch their tents for a month of enjoyment. In the party are Carey and Thornberry, the singers, and the campers expect to charm the people of that vicinity with their beautiful music.

Organizer Burt, of the Maccabees, was in town last night, having come from Steubenville, where he organized a lodge, and placed it upon a sound foundation. He arranged with Crockett and the women members of the order for a picnic at Silver Lake on July 25. There will be 10,000 Maccabees at the picnic, and a large delegation will go from this city.

At a business meeting of the Methodist Protestant Sunday school last night the following officers were elected: E. K. Bennett, superintendent; Miss Minnie Rowe, secretary; Miss Leona McMillan, treasurer; Miss Josie Burford, organist; William Curfman, chorister; Herbert Harrison, librarian; Charles Bowman, usher. The Sunday school has a large membership.

Mr. and Mrs. F. H. Croxall arrived in the city last night and as announced in the NEWS REVIEW yesterday will make this place their home. Mrs. Croxall has regained her health, the real cause of her removal to Denver. Mr. Croxall will make this city his headquarters, and will have charge of the surrounding counties as district manager of an insurance company.

The young hoodlums who sneak into the grand stand at the base ball games are a condemned nuisance, as they pound the seats, yell like hyenas and use language unfit for ladies or gentlemen to listen to. And the worst feature is that some overgrown toughs encourage them and sneer at anyone who attempts to call them down. Manager Weaver should stop the nuisance.

John Sant will leave with his family on Tuesday or Wednesday of next week for Louisville, Ky., where his pottery is located. Mr. Sant said this morning that his bill for collecting the Dow tax will be left in charge of good men, and he had no fear about council refusing again to pay it. He also said that the two months delay in going to Louisville has cost him more than the bill amounts to.

Thirty Rechabites accompanied by the Girl's band will leave on Monday for Roseville where they will attend the state meeting of Rechabites. It was expected that more members of the order would make the trip, but no more could be obtained. The Rechabites at Roseville have prepared a good program for their entertainment, and they anticipate a pleasant time. They will be absent several days.

An East End teamster whose court-ing days are long since past, discovered recently that youthful lovers were wont to congregate in the evening about his wagon in Riley's orchard. They would sit on the grass and chat merrily, but it did not please the teamster. So he got out his supply of axle grease, put large chunks of it in the grass around the wagon and concealed it carefully. The result can be imagined, and the ruined dresses and trousers are causing men to swear and maidens to weep loud and long, and call him the champion mean man.

## The Crosser-Ogilvie Co.

## White Parasols.

We have sold a pile of them this season. Some of them were great values, but it has been our luck to strike a lot this last week that for real value knocks them all out. 24-inch China Silk top, with the new Dresden handles, crooks and knobs, at \$1.50 each. This is a \$2.00 parasol and you will admit it when you see them.

## Silk Mitts and Gloves.

Our trade has been large this year on these goods, and we attribute it to the grade of goods we are selling. The Merrill Silk Glove has no equal for wear as it has the double tips and is made to stand good solid wear. We sell them at the same prices you will have to pay for gloves not having the advantages we claim for the Merrill. We show a full line of Silk Mitts from 20c up to 50c per pair, made by the Amsterdam Silk Mills, and we guarantee more value for the money in this line of goods than you have been getting.

## Wrappers. Tea Gowns.

We opened a new lot a few days ago. We want you to see them. When you can buy a wrapper for \$1 like we are selling you will make no more wrappers. More style than you could possibly put on a wrapper inside of a day's hard work. The best of calico used, and the price about what the calico would cost you.

## Towels.

Did you see that 25c towel of ours. If not you are missing the biggest thing in towels ever offered in the city. We have other values just as good, but you know 25c is a price that takes and we are selling more towels for that price than you ever bought.

## WELLSVILLE.

COUNCIL WILL DECIDE

The Water Question Which Comes Up On Monday.

The water question has reached that point where some action must be taken, and council will talk about it at the meeting on Monday evening. If what the authorities say is gospel truth there will be a high old time in Wellsville very soon should the repairs be delayed much longer. The result of the election seems to be a disappointment to many people, and as the facts connected with the condition of the system are disseminated there is a growing belief that repairs are absolutely necessary. Plans without number are suggested, and the wildest schemes in connection with the matter are heard on every hand. There is little doubt that Wellsville must have a change if it wants fire protection. The pumps are practically worthless, and the trustees can do nothing. If a fire ever starts on Third street or the square between the depot and the Commercial hotel no power on earth can save the buildings. There are other places where a fire would sweep with terrific force, and thousands of dollars would go up in smoke, and there would be nothing to stop it. Another argument in the matter is the suffering that will ensue when these old pumps break down. There are not enough wells in town, and the people would be compelled to go to the river for water for domestic purposes.

### THE BUMS.

The Last Crowd Have Gone and Another Is Ready.

The five wanderers who have been working on the streets have disappeared. One by one they dropped out of their places, and laying down their shovels and brooms they quietly walked away. This leaves the city with another batch of four, and these will be kept at work as long as they wish to stay. Some work has been done, but there is much more of it in waiting, and the city will never be clean if it depends on the wanderers. The bums in talking to a reporter said they looked upon the plan as a good thing for the town to get out of a difficulty.

### CLEAN STREETS.

Health Authorities are Cleaning Up the Town.

The board of health have looked upon the streets with anxious eye for months but have taken the matter in hand in recent weeks, and now Wellsville is as clean as any town in the state. They did this to keep down disease, and prevent the spread of any epidemic which might appear. The board of health now look upon the town with no little gratification, and they deserve credit for what they have done. The bums have done some work, but the board of health have done more.

### Home From the Hospital.

S. B. Berry, who has been in a Cleveland hospital undergoing an operation, has improved so much as to be able to return to his home in this place.

### The Bucket Did It.

A row that will long be remembered is said to have occurred in the lower part of the city last night, a woman being at the bottom of the trouble. The fight started on a shantyboat, but the contestants were put off, and went to a house nearby, where the two young men continued the quarrel. After hearing language that would cause a pirate to hang his head in shame the owner of the house caught up a bucket, and swinging it right and left drove them from the house. Both men were hurt.

They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels greatly invigorate the system. Regular size 25 cents per box. Sold by T. L. Potts, druggist. 4

### Spoke in Pittsburg.

Reverend Whitehead last night delivered an address at the Methodist Protestant Endeavor meeting in Pittsburg on "The Convention as a Power House." The gentleman made an excellent speech.

## ALL BAD WALKS TO GO

Chief Gill Has Notified Property Owners.

SOME HAVE NOT COMPLIED

Those Who Have Obeyed the Order Are on the Right Side of the Fence, but There Will Be Trouble For the Others. The City Must Have Good Pavements.

Good pavements are an absolute necessity in this city, and Chief Gill proposes that the orders issued by council last winter shall be closely observed.

Since it was decided that the bad walks must go the chief has been notifying the public, and keeping them in line. Some times he ran against an obstreperous property holder, but the majority realized the force of an order from the authorities, and improved the walks. In a number of places new brick walks have been put down, and in others old walks have been repaired, making long needed improvements. Now the chief has finished the task of notifying land owners, and looks for trouble. Some have complied with the order; others say they have no right to do it. How they propose to get out of the matter is something as yet unknown, but they will have to move quickly if they want to be in the good graces of council, for prosecution will certainly follow. If these people who have been asked to fix up will not do it they will be given a reasonable time, and if the walks are still in poor condition something will happen.

### NO FIRE WORKS.

The Police Kept Their Eyes Open Last Night.

The announcement that the shooting of fire works would be punished by the authorities, worked a wonderful change in the city last night. The police were on the alert, and the law was not broken. Chief Gill heard one loud explosion on West Market street, and was there in a few minutes. He did not see who fired the cracker, but kept close watch for him for half an hour and the offense was not repeated. For some reason he thought it best not to run up against the law. The new order curtails the revenue of dealers.

### A VICE PRESIDENT.

Reverend Whitehead Honored at the Springfield Convention.

When the officers were chosen by the state convention of Christian Endeavorers Rev. R. B. Whitehead, of the Methodist Protestant church of this city, was found to be one of the vice presidents. On Friday night he spoke to the 10,000 people assembled there upon "Progressive Consecration." He touched upon the right time of holding the consecration service, and said that without it the convention's work is done in vain, and in the end the individual members become nonentities, "for a man is of no use at all if he does not do God's will."

### WANT TO RESIGN.

Lisbon Firemen Are Angry Because of a Conviction.

Special to NEWS REVIEW.  
Lisbon, June 29.—In court this morning Charles Sipe was sentenced for striking Edward Eells with the nozzle of a hose at a fire several weeks ago. The sentence was \$25 and costs amounting in the neighborhood of \$75. Sipe is a fireman, and members of the company threaten to resign as they claim he was taking the hose from Eells, who is not a fireman, when the row began.

### TAKE STEPS

In time, if you are a sufferer from that scourge of humanity known as consumption, and you can be cured. There is the evidence of hundreds of living witnesses, but the fact that, in all its early stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been recently reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write to those who have been cured and profit by their experience.

Address for Book, **WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.**

We will join in the Young Men's Christian association service at the First Methodist Episcopal church.

### Quiet at City Hall.

There is no disturbing element at city hall. No prisoner has yet been captured to test the qualities of the new jail, and not one has been brought in to comment upon the beauties of the new whitewash. This is a source of care for Mayor Gilbert and Chief Gill, who are sad and downcast, but ever and anon there is a gleam in their eyes, which means there will be no unpunished violations in this village in the near future.

### A Good Thing.

The Buckeye Benefit association is making rapid strides in the city, and during the week added 25 members to the list. The officers are rushing the business, and expect to work up a big list before the year is over. The Buckeye presents many advantages which make it appeal directly to the public.

### CROKER IS INDIGNANT.

He Denies the Statement of He and Simms Killing a Horse.

LONDON, June 29.—Richard Croker has returned to town and is indignant when he learned of the publication in The Sun and Truth. Jockey Simms will sue The Sun for \$10,000 damages. Mr. Croker has addressed the following letter to Henry Labouchere, the editor of Truth: "Appreciating the world-wide reputation you have for fairness, I am surprised at the paragraph in the present issue of Truth with reference to Jockey Simms having driven a horse to death. As the owner of the horse, permit me to state the facts, you quote from The Sun a statement entirely erroneous. Simms did not drive the horse on that occasion. I drove him and there was no wager. Simms drove another horse into Cambridge at the same time, both being my property.

"We left New Market at 9:30 a. m. and reached Cambridge at 10:35, the distance being 13 or 14 miles. The horse that died was driven back toward New Market in a walk, dying en route. On the way to Cambridge the animal slipped a shoe, and I think a piece of flint caught in the hoof, causing lock-jaw. The horse was reshoed at Cambridge and at that time showed no signs of approaching death. He was a good horse, equal to the task of traveling the distance from New Market to Cambridge in much better time. If forced. The horse's record in America was 2:13, for a mile. Simms was unaware of the publication in The Sun until Truth brought it to his attention."

### EPWORTH LEAGUE CONVENTION.

A Sunrise Prayermeeting on Lookout Mountain—Colored Men Talk.

CHATTANOOGA, June 29.—The second day's session of the Epworth League conference was opened with a "sunrise prayer meeting" on the bluff of Lookout Mountain in front of Lookout Inn. A wonderful experience meeting was held, in which delegates from nearly every state in the union participated. During the recital of the experiences several of the delegates became so impressed with the fervor of the occasion that they shouted.

It is estimated that there are fully 12,000 leaguers in the city.

Various subjects are being discussed. One of the features was a speech by Rev. W. J. E. Bowen of Atlanta, a colored preacher. His appearance on the platform was the occasion of wild demonstration. He started out with the proposition that 30 years ago it would not have been thought possible for a man of his color to stand before such an audience and discuss the question of education. He said he was not concerned in his ancestry, or where he came from, but was most concerned in where he is going. The address produced a tremendous sensation.

### Cattle Failed to Appear.

BUFFALO, June 29.—O. O. Cottle, the lawyer who was kidnapped from his office, taken to a vacant house and there chained to a post 10 hours until his relatives raised \$5,000 for his release, was to have appeared before a grand jury to give evidence toward indicting John C. Emery and George Allen, accused of being his abductors, but did not appear.

### Gota Low Mark.

Egremont, the handsome trotter owned by Wanamaker & Deldrick, won the 2:50 trot at the Beaver races yesterday without much trouble. The best heat was won in 2:30, almost the best time of the afternoon.

### Where is Courtney?

Lisbon, June 29.—Courtney the much wanted man in the John Henry case has not been caught and the case is postponed indefinitely. A Wellsville larceny case will take its place.

### Notice.

All members of General George H. Thomas council No. 8, American Mechanics, are requested to meet at their hall Sunday, June 30 at 10 a. m., to attend divine service. By order of C. H. TWADDLE.

### NOTICE TO CONTRACTORS.

OFFICE OF CITY CLERK, 1

SEALED PROPOSALS WILL BE RECEIVED at the office of the City Clerk of the City of East Liverpool, Ohio, for the following improvements in said city:

For the paving of Lincoln avenue from north side of the Horn Switch to the south side of Grant street, said paving to be of hard burned brick set on edges, and including necessary curbing, grading and constructing culverts and drains, according to the plans and specifications therefor on file in the office of the city engineer.

For the grading and otherwise improving of Elm street, from Pennsylvania avenue to Thompson avenue, according to the plans and specifications on file in the office of the city engineer.

For the extension of the culverts on Eighth street and Pennsylvania avenue. Plans and specifications are on file in the office of the city engineer.

Bids on each of the above jobs to be separate.

All bids must be filed by 12 o'clock noon on the first day of July, 1886.

Each bid to be accompanied by a bond in the sum of \$100 as a guaranty that if the bid is accepted a contract will be entered into, and the performance of it properly secured by two disinterested resident sureties, otherwise the amount forfeited to the city.

The council reserves the right of rejecting any or all bids within a period of thirty days after the same are opened.

By order of

CITY COUNCIL.

JAS. N. HANLEY,

City Clerk.
